1631	X	X	X	X	X	X	X	X
1632			X	X		X	X	
1669			X			X	X	
1669 2/3		X			X	X	X	

Hybrid model is a cross between Brassline and Glasstec, with brass framed panels and frameless doors with GGP hinges. Available in the same configurations as GGP models.

The table above is meant to display all available Glasstec hinge door models. An "X" indicates that the configuration is available for the corresponding hinge type. The following pages include pricing for the majority of models, though some have been excluded to simplify the book. Please contact us if you would like pricing for any enclosure that is not included in the book- we would be happy to help.

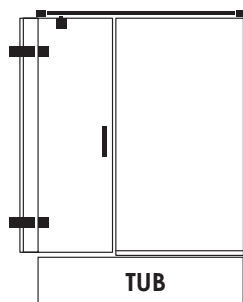

**Custom configurations available for most models, including additional inline/return panels, buttress panels, angle cut panels or doors to follow the slope of the ceiling, etc. Please contact us for details.**

## BIFOLD MODELS

### STANDARD FEATURES ON BIFOLD MODELS

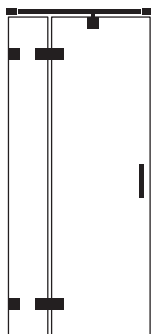

- Bifold Doors operate with the ease of a conventional door
- Handle swings in a natural, ergonomic path
- Slim 1" square brass header
- Ideal for tight spaces-Easily clears vanities and toilets
- Ideal for ADA applications
- Fully opened doors create a safer environment while bathing young children in bathtub applications

cast

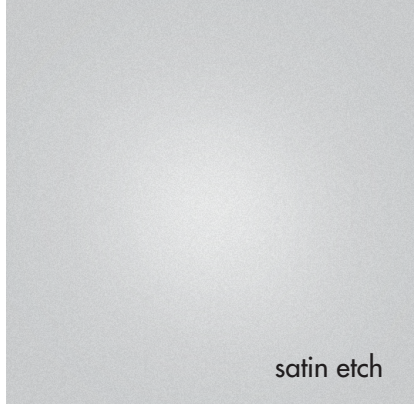

niagara

stipolite (Pattern 62)

reed

satin etch

The optional Diamon-Fusion treatment helps protect the glass from the build up of soap scum and hard water deposits and reduces cleaning time by 50%. Applied to both sides of the glass, a vapor mist fills the natural microscopic peaks and valleys in the glass with a ultra thin optically clear durable material making it easier to clean. Simply wipe down with a washcloth or squeegee after showering.

Customers ask for ShowerGuard glass by name because it's the first and best permanent protective shower glass on the market. Wipe-on, spray-on alternatives may need to be periodically re-applied after use. ShowerGuard is applied to one side of the glass during the manufacturing process. Only ShowerGuard has a lifetime limited warranty.

## AVAILABLE UPGRADES FOR 3/8" GLASS

Showerguard on LI Clear	\$74

\* Please call to check availability of ALL glass upgrades. Also, please note that Aqualite glass has inherent flaws in the pattern which cannot be avoided. We would recommend explaining this to any customers interested in this glass in order to set expectations.

Prices shown are per square foot and are incremental to clear glass price, so can be added to the unit list price.

Formula for Square Feet:

Door Width (inches) X Door Height (inches) ÷ 144 = SF

Example: 28" x 80" = 2240 ÷ 144 = 15.55 SF (Round to whole number)

	\$/ Sq Ft
Diamon Fusion	\$10

Diamon Fusion is a one-time, chemical treatment that is applied to and absorbed by the glass in order to add a layer of protection to the glass, reducing the required cleaning time.

(APPLIED TO BOTH SIDES OF THE GLASS)

Available in Standard Paint
