STEAM UNITS MADE WITHOUT A TRANSOM STEAM KIT

A steam efficient door can be accomplished by building the enclosure to full height or with the use of a stationary or venting transom.

Sliders	Interlocking fins and steam foam can be added to a slider for steam use. This makes the functional steam unit and is 75% steam efficient.	Add \$113 to list price
Hinged Doors	A combination of a magnet header, magnet cross piece, and stryker frame section can be added to hinged doors to obtain a tight fit. This type of enclosure is the most effective for a steam unit.	Add \$217 to list price

STEAM UNITS MADE WITH A TRANSOM

A stationary transom can be installed over a standard height door to make the enclosure steam efficient. The unit the transoms are installed over need a steam kit (see above).

* Please call to check availability of ALL glass upgrades. Also, please note that Aqualite glass has inherent flaws in the pattern which cannot be avoided. We would recommend explaining this to any customers interested in this glass in order to set expectations.

Prices shown are per square foot and are incremental to clear glass price, so can be added to the unit list price.

Formula for Square Feet:

Door Width (inches) X Door Height (inches) ÷ 144 = SF

Example: 28" x 80" = 2240 ÷ 144 = 15.55 SF (Round to whole number)

	\$/ SQ FT
Diamon Fusion	\$10

Diamon Fusion is a one-time, chemical treatment that is applied to and absorbed by the glass in order to add a layer of protection to the glass, reducing the required cleaning time.

(APPLIED TO BOTH SIDES OF THE GLASS)

satin etch

thin ribbed

The optional Diamon-Fusion treatment helps protect the glass from the build up of soap scum and hard water deposits and reduces cleaning time by 50%. Applied to both sides of the glass, a vapor mist fills the natural microscopic peaks and valleys in the glass with a ultra thin optically clear durable material making it easier to clean. Simply wipe down with a washcloth or squeegee after showering.

Customers ask for ShowerGuard glass by name because it's the first and best permanent protective shower glass on the market. Wipe-on, spray-on alternatives may need to be periodically re-applied after use. ShowerGuard is applied to one side of the glass during the manufacturing process. Only ShowerGuard has a lifetime limited warranty.
